

ARTIFICIAL INTELLIGENCE - ML

Date : 25-JAN-19

Timings : 10.30 am- 5.00 pm

Venue : DEPARTMENT OF IST, CEG.

"Computers are able to see, hear and learn. Welcome to the future."

Have you ever been struck by how effortlessly machines are able to pull off tasks that we've deemed impossible? From self driving cars to Cortana, we are at the brink of what can be called the golden era of technology - all because of the ingenious concept of machine learning. This ITrix 19, we have partnered with Microsoft to provide you with more insight regarding this mind-blowing field of technology. Get ready to get enlightened.

Contents:

FN: Introduction to Machine learning, Theory for Machine learning and real world examples.

AN: Implementation of machine learning algorithms in azure platform. (Participants are requested to bring laptop).

Instructions to the participants:

1. All participants are requested to bring the “Payment Id” and be present an hour before the workshop on the day of workshop. (ITRIX is responsible for all charges collected.)
2. Participants will be provided with azure passes. (Shared by two).
3. All participants are requested to bring laptops and chargers of their own.
